

1987 944 For Sale \$800

Posted by dwebb944t - 28 Nov 2009 00:50

Hi All,

I have a white 1987 944 NA for sale, come and get it \$800 obo.

Car will not start, has set for over a year in my driveway, most likely it is a clogged fuel filter, maybe just a DME relay, don't know. Car has 200K+, ran fine when I was driving it, needs brakes (new pads sitting in the car), basically this is a project car or descent base for a spec car.

Car has a cup clutch with maybe 15K miles on it, installed myself, with new slave and master cylinder, fork,t.o. bearing, pressure plate.

Momo steering wheel like new (the right one, the one for the track)

I will NOT part out, please don't ask. If you want parts from this car you will need to take the whole car! Car does NOT have an LSD.

Interior is the tan with the Porsche logo and the drivers seat is completely torn up, otherwise interior is descent.

Body is straight, driver fender appears to have a small repair on it, not too bad though

Car is located in East Mesa, my phone is 480- two seven two 3231. I will not be checking this forum, so if you have questions just call me. I want this car gone!!!

Thanks,

Dan Webb
