

WTB Front body parts

Posted by JRichard - 30 Nov 2009 02:38

After my round of playing pin the tail on the bimber I'm in the need of an unmolested right front fender, headlight cover, nose panel and front spoiler... Color doesn't matter but I'd like to have a no damage set...

If you have them for sale let me know, pm, post or email: jrichard@richard-bauer.com

thanks, Jim
