

Another Bargain worth mentioning

I know most of the racers usually buy products from their sponsors but I have ordered many products from www.SafeRacer.com and have always been 100% satisfied with them. Their pricing is usually pretty cheap but I have found some things cheaper at UPR and OG Racing but for those items that are regular priced, you can always use this coupon code: sm0125xrp and get an additional 10% discount. With no tax to California and Free Shipping for items over \$100, it is hard to beat this deal.
