

Thunderhill May 14 & 15 Roll Call

Who's going?

I'm currently on the fence as my new torsion bars haven't come in yet. I'm hoping to have them before this weekend so I have some time to get everything set up. If I don't get them, I'll have to set the car up next week after work one day (assuming they come). I also have some paint on order so I can spray the new bodywork and avoid being kicked out for too ugly. In summary I hope to make it but not so sure.

How about everyone else?

I missed the lap record by .025! I'm really bummed! We rarely do the bypass so I might not get another chance. My Hotlap timer isn't reading so I had no idea of my times so had I known, I could have pushed a little harder.

Just shows how fast Bill Pennock was/is and how much harder I have to work if I plan on catching Rick, Steve, and Sid!
