\_\_\_\_\_

I'm looking to have a trans overhauled since my good LSD trans has stopped engaging some gears. Is there anyone in the local area that is a trusted source for trans work?

## Re: Transmission options Posted by 944Racer72 - 20 Aug 2011 17:01

Thanks for the recommendations guys. I think I'm first going to see if I can troubleshoot my LSD trans and see if it is something simple.

I've got several spare open diff trans around so I make take one apart and see if I can teach myself before spending the big bucks.
