

Bay area wrecking yard for 944 parts?

Posted by cbuzzetti - 17 Feb 2013 18:26

Hey guys, do you have a local wrecking yard that may have some 944 parts cars?

I am looking for the Boge strut mount for an 85.2 - 86. I need the one with the large nut that holds the strut insert inside the mount. I want to run Bilsteins on my new car.

Hope to see you all at least one weekend this season.

EASY Parts, Parts Heaven are two that come to mind...

What Joe said are the 2 ones in the Bay Area, without resorting to Pick and Pull type operations.
