Need help cage shopping Posted by Gary_44 - 12 Jun 2008 16:34
Hey folks,
Finally got around to making a profile. I need a little education
I'm getting more serious about a cage, wondering if you guys can give me recommendations on a kit o installer.
Found a speed shop here in Modesto thats built a few 944's, wants \$1600 minimum. I hope I can beat that.
What were the downsides to a bolt-in?
