

Spare helmet anyone?

Posted by Gary_44 - 19 Jun 2008 07:55

Saturday 6/28 is my Dad's 73rd birthday, he'll be at Infineon with me. I'd like to take him out with me for one of the HPDE sessions.

Does anyone that's going to be there that day have a spare large helmet I can borrow briefly?

the spec 944 group will be there, i use a large bell m2, you could borrow that if the schedule works out. somebody else in the 944 spec group might have an extra to bring.

I have a white Pyrotect large helmet SA2000 that is in excellent condition that I am selling if anyone is interested for only \$150 but to a 944 guy, only \$120. I only used it maybe a total of 8 times. Let me know and I will bring it with me.

Hey Gary,

We'll find you a helmet for your Dad.

See you at Infineon.

Thanks in advance, guys. I didn't want to buy one for just 1 session.

Sid, bring the Pyrotec. If it fits any of my other potential passengers, I'll take it off your hands.
