

Infinion - June

Posted by Big Dog - 08 May 2009 13:32

OK, guys. This is to get you all thinking about Infinion at the end of June. Make sure you have racing budget and husband points available to make this race.

Lock up the women, kids and pets, Charlie B. and Big Dog are planning to come up to race with you all. Get everyone's cars preped and ready.

Ken, I don't want to hear no stinking excuses for anyone not coming out to race. Whip up the troops.

Charlie has a motorhome as well and we will set up a 944 compound in the usual area. Who will be around on Friday evening? Let me know so we can plan something for Friday afternoon/evening. Will NASA be doing something Saturday evening? If not, let's plan something.

I am looking forward to seeing everyone again.

Big Dog

great video!

Clean & tight racing, fast & loose driving. Too bad no video from the 999 car of Rick's last lap turn 3 save.

My wipers do the same thing, I think it's in the switch, so I just keep the fuse pulled until it clouds up outside.

Sorry to hear about Aubie's crash.
