

Killer Deal Sparco Spy05 SA2005 Helmet w/Hans Clip

Posted by Litespeeds - 03 Apr 2008 01:59

www.sparcousa.com/phelmets_comp.asp?id=536

Just wanted to pass on the special I found on a really nice Sparco helmet with Hans clips installed for only \$359. You won't find a better deal out there for a lightweight SA2005 helmet. Don't miss out on this deal.

Just got the helmet in today and I must say this helmet feels so good compared to my cheaper Pyrotec that is SA2000 rated. Both helmets are large and I weighed them but was a little disappointed that the Sparco weighed in at 3 lbs 11 ozs. with the Hans clips compared to my Pyrotec which weighed in at 3 lbs 9 ozs.

The fit is not even comparable between the two. The Sparco just wraps so softly around my head while the Pyrotec feels like you are wearing something on your head. I think the main reason is the Sparco liner is contoured for your ears so there is no pressure there. Also the cheeks don't seem to be as tight. Overall I am extremely satisfied with my purchase for only \$359 including shipping and no tax.

The only thing that I might be a little concerned about is the small cutout for the viewing area but I guess I won't know until I use it this weekend.

OK. Used the new Sparco helmet this past weekend at Infineon with 85+ degree weather and it was a little warm inside the helmet but it was very comfortable. The small viewing area is perfect as it did not interfere with my vision at all. Overall I give this helmet 4.5 stars out of 5.
