I am going to Sonoma for the September 10-11 races. It is a kick ass track if anyone from SoCal wants to join me.

Ken,

I don't see a way to PM on this forum. If you know a way, please contact me. How can I contact you?

He has raced there a LOT. He is in the expert race class with AFM. He also used to Time Trial his 944 a lot down here in SoCal. He bought Jason's Spec car and has Time Trialed it a couple of times with NASA Socal. He found the problem with it and it now runs fine. He is working on correcting the suspension so it handles up to snuff.

Would like to discuss, but this is not the place.

Chuck

Ron,

Go play with both of them!

The rest of us will be rusty as we will not have driven for 3 months!

Really wish I could run this one!

Ron, No I am not going to the Western States Championships. Best of luck to you. I hope you change your mind about Sears Point. 3 cars would be better than 2.
