The head gasket has just been replaced. I stripped out the interior just needs a little bit of work with the roll cage. All that is left in the engine is the coolent lines to be installed. I can't finish it I just don't have the strength right now. I'm asking 1200 obo just to get it out of here. Re: 86 944 car build for sale Posted by Lucid Moments - 28 Apr 2017 09:04 Where is here?
