

944Spec / SP1 - LSD, Short 5th,'88 - SOLD

Posted by Andrew Cox - 29 Jul 2019 05:07

SOLD

1986 chassis with a 1988 rebuilt engine, SP1 / 944Spec, PCA & NASA Logbooks. Exceptional build, countless new parts, no bolt unturned, rebuilt engine, new Lindsey fuel rail, new external oil cooler and lines. Highly valued LSD and Short 5th. Custom cage. Completely built to SP1 and 944Spec rules. Interior stripped down, cleaned wiring, custom dash. Exterior is excellent, no rust, newer white paint.

Re: 944Spec / SP1 - LSD, Short 5th,'88 Rebuilt Engine

I would share paying for shipping costs for a remote buyer.

I've found my next car at an awesome price, but I need to sell my 944Spec this weekend. I'm at the bottom of the barrel on price and would accept \$8,900 at this point. You're on your own for any shipping cost now, though I would consider delivery within the Minneapolis area.
