FS: BRAILLE LT-WT BATTERY-$70
Posted by spec28 - 25 Jan 2011 22:29

_____

For Sale is a Braille LightWeight Battery Model B14115.

This is the 11 lb racing unit with both post and lug terminals. Also includes a custom mount that bolts the battery into a Porsche 944 without modifying the stock mount.

Pull out the stock battery, bolt in the Brialle and drop 25+ pounds off the passenger side.

I ran this unit for only 2 events. The car is gone, now I dojn't need the Battery. Works like new.

Paid $158....sell for $70 with mount.

Oh, it's brand new!!! I have it on order now and haven't received it yet!

For Sale is a Braille LightWeight Battery Model B14115.

This is the 11 lb racing unit with both post and lug terminals. Also includes a custom mount that bolts the battery into a Porsche 944 without modifying the stock mount.

Pull out the stock battery, bolt in the Brialle and drop 25+ pounds off the passenger side.

 NO events. I don't need the Battery. Works like new.

Paid $158....sell for $140 without mount.

Let me know Jerry
