Are the used rear Koni shocks early or late? Are they the yellow sports?

Thanks

Rob,

Are the used Koni rears for late 86 - on cars?

Same question for the new ones. Also, is the price for new Koni's a typo? (new sets are \$300/pr)

Let me know asap as I am buying this week.

this is a strange request, but do you have the weatherstripping that goes around the sunroof, the one that goes on the body, not the sunroof

Thanks,

Michael
