

Eibach Springs

Posted by Big Dog - 05 Nov 2011 09:26

Guys, I have Eibach Springs, all 2.5 inches in diameter, that are available as follows:

2 - 8" by 300 lbs. 0800.250.0300 Used

2 - 8" by 350 lbs. 0800.250.0350 Used

2 - 10" by 300 lbs. 1000.250.0300 New

2 - 10" by 325 lbs. 1000.250.0325 Used

2 - 10" by 350 lbs. 1000.250.0350 New

2 - 10" by 400 lbs. 1000.250.0400 New

Summit lists these for \$79.69 each.

How about \$50 each, plus shipping, for the used springs and \$60.00 plus shipping for the new ones?

If you want to try different spring weights to help balance the front to your rear torsion bars, here are some you can work with.

Here is my e-mail, if you want to contact me there -

Yo Dog,

Might Ye ave some Koni yellow sport rears for late swing arms in yar inventory ye'd be willin to sever fer a slight pence?

Raise a flag soon as i'll be yearnin for em soon!
