

Short 5th gear/NA transmission

Posted by ebrown512 - 10 Aug 2015 08:25

I am currently switching out 5th gears. I have a short 5th gear set from an 86 turbo transmission (unknown mileage) for sale. It currently is setting on my work bench next to an 87 NA gear box (158K). I can sell either separate or place the gear in the NA box and sell complete. Any takers? Make offer on either setup.
