I have a new, never installed weld in Hanksville HotRod cage for sale. This has every option offered by Hank. All gussets, nascar door bars, rear X brace etc. I ordered this cage to install in an 84 944 i was building. Things have changed and i will not be able to finish this project. The car along with 2 engines and everything I have is available for \$1000 more. Please email me if interested
