---

Happy New Year!

Cleaned out the garage this morning and found some leftover stuff from my 944 MotorWerks days that you guys might find useful. Prices do not include Fedex Ground shipping.

- 2 '88 pistons, group tolerance 1, decent shape. \$50 each (SOLD!)
- 1 '88 oil pan with baffle, pickup & return tube, dipstick & tube. \$100 (SOLD!)
- 1 late stainless steel exhaust manifold. I don't see any cracks. \$50 (SOLD!)
- 1 late cam, 944.105.155.9R, excellent. \$40 (SOLD!)
- 7 early sinter-forged connecting rods, 944.103.101.3RARST. \$20/each or \$120/all
- 45 lifters. \$2.50/each or \$100/all
- 1 water pump, barely used, with new thermostat. \$30
- 1 OPRV, excellent. This is the single piece replacement for the 3-piece design from 83-early 87, 944.107.035.11. \$80. (SOLD!)
- 1 late wiring harness, looks good. \$50
- 1 water-to-oil heat exchanger, 944.107.165.01, nearly new. This was removed from engine which did not have a bearing failure. I don't even think these are available anymore. \$80.

Shoot me an e-mail: david.dirks76 at gmail dot com.
