

'83 manual steering rack, shaft, hardware

Posted by boostfeen - 06 Jan 2010 00:57

Removed from an '83 944 this manual rack has been taken apart checked for worn teeth, cleaned and re-filled with fresh high temp grease. Everything looks great, scuffed, reprimed and painted the main body. Comes with hardware, saddles, great rubber bushings, and intermediate shaft everything needed to eliminate all your 25lbs of power steering gear.

Asking \$275 plus shipping, thanks & Happy New Year!
