Water Wetter = BAD? Posted by xsboost90 - 16 Aug 2012 18:37
forums.rennlist.com/rennforums/showthreaamp;referrerid=11788
found this on rennlist.com - looks like water wetter can really foul up your system- now what? Im stuck using water in my spec car so i need some other alternative= maybe the royal purple stuff
Re: Water Wetter = BAD? Posted by 944Racer72 - 16 Aug 2012 19:21
I've used it for years with no issues. Considering the source is a competing product, I'd take it with a big grain of salt.

I also have used it for 10+ years in my 944 spec motors. I have never seen any issues like that.
