

WTB: Car for 2016 Season

Posted by Takumi - 06 Feb 2016 08:28

Hi All,

I am looking for a ready to go car for 2016 season. If you have a car that you are not planning on using or planing on selling, please list it on the classifieds or if you want to contact me directly sudhir@takumi-capital.com

I'm interest in a clean car (no significant body damage or crashes) with a hanksville cage and nice interior. I have a ready to go 88 motor and lsd trans from my old car plus most of the parts, but decided that it would be nice to have a working car with spares for this season. For the right car, I don't mind

traveling to get it but it would be nice be either in the rocky mountain or midwest area or anywhere in between.

Thanks Sid
