

Alignment specs

Posted by rd7839 - 21 Apr 2010 08:43

I'm getting my car realigned tomorrow and was wondering if there is a consensus on specs. I'm going to run r888's one last time but will be on RA1's by next race. I like the car to err on the side of understeer slightly.

Thanks

Ron

front -3.5 camber

0 toe

max equal caster

rear -2.5 camber

1/16 toe in per side to 1/8 toe in per side

this is for RA1's
