Great Job Tyler, Erik and Dan!!!

Tyler reset the track record as well according to SpeedcastTV broadcast.

944 did not get great coverage this year due to low car counts and the great race in E30.

For those of you who watched you know what a great race the E30 cars had. The leader checked out but there was a great battle for 2-5 the whole race.

David Dirks lead the SpecZ race but ended up 3rd. This looks to be a good up and coming class.
