

Where to park at Miller !

Posted by SvoChuck - 09 Jun 2008 14:40

I spoke the Dave today . when you get to Miller the security guard will be able to tell you where our pit area is . PLEASE PIT IN THE AREA WE ARE GIVEN . The powered spots will be less than 40 yards from the area where the unpowered people will pit. this area is also close to the garages we have rented.

RM has 2 garages 1 paid for by Hanksville Hotrods and one by us . this will be our social hangout it has Air condition, food and Drinks !

My rig is a green F350 van with a 2 car open trailer . It should have a canopy over it with Hanksville Hotrods written on it . The trailer is open down the center. Feel free to work on your car on the trailer (in the shade) anytime. The center is open so it makes some jobs easier. Some of my tools are also right there so your welcome to use those as well.

Drive safe and I really look forward to seeing / meeting you all !

Get ready Todd HERE WE COME !

=====
