It worked out great and it was a good meeting and gathering place. Did we get a community garage? Any one have a count on the number of RVs? Re: 944 Spec compound Posted by cbuzzetti - 23 Aug 2013 19:28 OK thanks for the answer. I could not remember how the garages were configured last time and the sign up was not clear on that. The ultra late dyno sign up is a pain. I sure hope we can get some time reserved so we can at least get a baseline to know where we are. Unfortunately they are telling me they are already booked solid as of noon today unless they are allowed to run the dyno until 7 pm.

Nasa has the dyno booked for all of Thurs-Sun.

Yeah, we all got an email, and then it was almost instantly booked out. I have an email into Will aking to let them run later - they did at Mid-O.
