

A new 944 for RMR!

Posted by Hanksville Hot Rods - 23 Aug 2012 07:14

Hey gang, we recently finished Hanksville's 65th 944 cage project! This car belongs to a local customer. The cage shares the same design and tight fit as our "mail-order" cage, with the addition of Extended-Style door bars and rear X-bars which are also available with our mail-order kit.

Hope to see this car on track at the beginning of the season!
