944-SPEC - 944SPEC - low cost wheel to wheel racing

Generated: 30 June, 2025, 00:08 high comp pistons Posted by rlofgren - 04 Jul 2008 06:32 i am trying to find the high compression pistons/88 motor setup for a new 944spec i am putting together. they do seem hard to come by. what i did come across was brand new exact replacement mahle pistons. are these legal for spec since they are same as stock? anyone have any experience with these? www.heritagemotorcar.com/research/piston.htm Re:high comp pistons
Posted by Karl @ ART - 10 Jul 2008 09:37 Wow Bruce, what a great resource!! Were you noting the side clearance of the rings? One is shown 0.0004 bigger than the other. There probably isn't a caliper that is accurate enough to see less than half a thousandth of an inch. Amazing tolerances!
