Anyone interested in early custom harnesses? Posted by many944s - 06 Jan 2009 05:18

Well, I'm finished with the harness for my project! I also measured all the lengths so I can make more if anyone is interested. This replaces the factory body harness for use in a spec car. It is wired for: Brake lights Fuel Pump Tach Oil pressure (both gauge and idiot light) Engine temp Radiator fans windshield wipers Engine Run & Start. Main power The entire harness weighs in at just under 1 pound. -Nick
