| Getting the glue off in the interior Posted by mug23 - 08 Feb 2009 10:07 |

| Hello, |
| I'm in the process of taking some of the interior pieces out in the back seat and when I was taking the carpets out, there are like million pounds of glue Porsche uses to stick the carpets in there. |
| What do you guys use to take all that glue off? Heat gun? What chemicals can you use that would be easy? |
| Thanks |
