

importance of spring plate cover mount

Posted by nkgosselin - 08 Apr 2009 08:47

I am ordering parts to redo my entire suspension.

One part that elephant racing makes is the spring plate cover mount that is \$260 for the pair. OE rubber mount is \$60 each.

Are these critical to the performance of the car and worth upgrading or renewing?

Just have not read too much about this part.
