

Paint/Decal Scheme

Posted by 944sracer - 18 Dec 2008 11:00

Hi all,

I will be re-painting my car soon and I was wondering if there is a set decal location for club and sponsor decals. If so how do I get these decals. I know where the PCA ones need to go, as well as the minimum size of class and number decals but I am a newbie about the other clubs. TIA

Blake

P.S. the car is and will continue to be Black

Chuck should respond and be able to get sponsor decals to you. NASA requires NASA decals and Toyo decals. Details on their placement should be in the 944 spec regulations. Chuck may have a new sponsor with new location coming on board.
