

Anyone going to the Pot-O-Gold Rush

Posted by Mike M - 04 Mar 2012 13:31

I am new to 944 spec and interested in the series, would like to meet with some members and talk. Have autocross for a few years with a 1988 944 8v, did intro to racing in Limerock CT along time ago and would like to do some driving schools this year. I live south of Nashville TN. so Atlanta not too far of a drive for me.

I will be at Road Atlanta this weekend and will be racing in 944 Spec. As the NASA-SE Director I would be glad to introduce you to all the members and answer any questions you have.
