944-SPEC - 944SPEC - low cost wheel to wheel racing Generated: 5 December, 2025, 19:40 Cage Welder Dallas Posted by msteele - 27 Dec 2012 15:44 Does anyone have any recommendations for a TIG cage welder in the Dallas, TX area. I'm going to order the Hankville cage and have someone local weld it up but need some recommendations. Thanks, Mark Re: Cage Welder Dallas Posted by AgRacer - 28 Dec 2012 09:17 I bought my car already setup so I didnt have to go through the cage building process. Give Clownshoe Motorsports a call. He's located in Dallas and would have a good read on some shops around the Metroplex that would be good. Other good places to call and ask for a reference would be Performance Speed Tech, which is the race shop located out at Motorsports Ranch in Cresson, or LG Motorsports. Im guessing you decided to build a car instead of buying the one thats for sale in Texas? \_\_\_\_\_\_ Re: Cage Welder Dallas Posted by Tabbasco - 28 Dec 2012 11:51

+1 for Clownshoe...

Thanks everyone. I called around and I'm going with Clown Shoe. They seemed to be the only ones that have done a 944 cage before.

mark-
BJ and Jeff are good guys. they will be putting in new rod bearings, radiator and fixing my front sway bar this month.
They do job work
